

ANNUAL REPORT 2020

MISSION & AMBITION

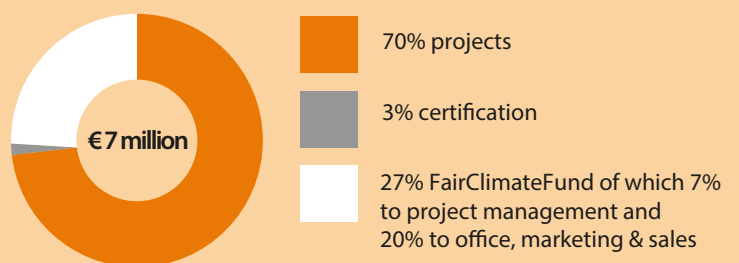

We want to demonstrate that the carbon market can benefit those - who are the most vulnerable to the effects of climate change - in a fair and effective way.

Those with the largest carbon footprint invest in carbon reduction projects with high social impact that meet the Gold Standard and Fairtrade Climate Standard.

Our revenue

Division of costs

OUR TOTAL IMPACT

636,653

Tonnes CO₂ reduced by 463 million
kilos of wood saving = 927,575 trees

114,544

Trees planted

333,350

People reached of which
46,175 women trained

86,998

Clean cooking units installed

Improved cookstoves for women - India

4,628,878 hours saved

114,922 person-years with less negative health symptoms and with avoided smoke exposure

114,922 person-years with increased perception of outdoor safety

574,610 person-years of improved cooking

149,375 tonnes of CO₂ reduced
8,051 women trained on climate change

Clean cooking with biogas - India

20,325,178 hours saved

104,645 person-years with less negative health symptoms and with avoided smoke exposure

104,645 person-years with increased perception of outdoor safety

523,223 person-years of clean cooking

225,330 tonnes of CO₂ reduced
11,633 women trained on climate change

Cookstoves for coffee farmers - Ethiopia

9,002,448 hours saved

22,811 person-years with less negative health symptoms and with avoided smoke exposure

22,811 person-years with increased perception of outdoor safety

189,331 person-years of improved cooking

60,572 tonnes of CO₂ reduced
6,193 women trained on climate change

Solar cookers for refugees - Chad

10,140,312 hours saved

41,787 person-years with less negative health symptoms and with avoided smoke exposure

41,787 person-years with increased perception of outdoor safety

193,056 person-years of improved cooking

61,823 tonnes of CO₂ reduced

4,643 women trained on climate change

Reforestation for coffee farmers - Peru

114,544 trees planted

Birds, Bees & Business - Burkina Faso

1,537 households with access to micro-finance. Total amount: € 35,000.

7,747 person-years with less negative health symptoms and with avoided smoke exposure

7,747 person-years with increased perception of outdoor safety

51,432 person-years of improved cooking

14,250 tonnes of CO₂ reduced
